To whom it may concern,

We are the Revolutionary Robots. We are a FIRST Tech Challenge Team. Our team is made up of seventh to twelfth graders from the Moore area. Our goal is to provide kids in the community a hands-on experience learning Design, CAD, Programming and other valuable career skills. Currently team members must pay membership fees at the beginning of every season to help cover the expenses which primarily consist of robot parts and registration fees. This can be a hardship for many families and could make it impossible for some to participate. We are seeking sponsorships from community businesses to eliminate membership fees. This would allow us to be more inclusive to all members of our community and establish a program that lasts beyond our time in it.

Members of our team mentor two FIRST Lego League and two Jr. FIRST Lego League teams, whose ages range from kindergarten through seventh grade. These teams also have registration fees. Our plan is to eventually build enough corporate sponsors to support the younger teams as well as promoting STEM in our community.

As a team, we are very involved in our community, which means any advertisement would be seen by members of the community on a consistent basis. These events include tournaments and large outreach events.

How can you help us grow our program?

Lieutenant- \$25 - \$74	
<i>What Your Business Would Receive at this Level of Sponsorship</i>	Logo on Engineering Notebook cover
<i>What This Level of Sponsorship Would Mean to Our Team</i>	Every little bit helps our team be able to create a great robot and learn and grow into a more inclusive team.
Captain- \$75 - \$199	
<i>What Your Business Would Receive at this Level of Sponsorship</i>	Lieutenant benefits Logo on team shirt
<i>What This Level of Sponsorship Would Mean to Our Team</i>	A donation of this size: <ul style="list-style-type: none"> • Would cover the cost of control hub, or • Would cover the cost of four motors, or • Would cover the cost of new wheels.
Modern Major General- \$200 - \$499	
<i>What Your Business Would Receive at this Level of Sponsorship</i>	Captain benefits Logo on banner hanging in pit at events
<i>What This Level of Sponsorship Would Mean to Our Team</i>	A donation of this size: <ul style="list-style-type: none"> • Would cover the cost of registration fees for qualifying events, or • Would cover the cost for a new laptop for CAD or Programming

Commander- \$500-\$999	
What Your Business Would Receive at this Level of Sponsorship	Modern Major General benefits Opportunity for a physical appearance at events our team hosts Logo on robot
What This Level of Sponsorship Would Mean to Our Team	A donation of this size <ul style="list-style-type: none"> • Would be the cost of State registration, or • The cost of a field for the robot game, or • Cover the cost of a new wheelbase.
Right-Hand Man- \$1000+	
What Your Business Would Receive at this Level of Sponsorship	Commander benefits Social Media recognition (A thank you post and reposts from your own site)
What This Level of Sponsorship Would Mean to Our Team	A donation of this size <ul style="list-style-type: none"> • Would get us over halfway to eliminating membership fees, or • Would cover out typical budget for robot parts, or • Half of the cost of World's registration, or • Set up a need-based scholarship program to help pay travel expenses for out of state events.

The Revolutionary Robots are part of the Moore Community STEM Club, a non-profit organization, which means any donation would be tax-deductible. Our team will be happy to accept any donations if monetary donations are not feasible. These donations would count toward the reward ladder. Thank you so much for your support!
